mileage

In the journey of life, one should be strong enough to reach the destination, just like E-loader Kinetic Safar Shakti which stands for strength, durability and dependability. It is economical as well. Its strong steel body bears up to 400 kg, ensuring safe transportation of goods and easy commute.

This good looking E-loader Kinetic Safar Shakti comes with 1 year warranty, easy availability of services and spare parts.

It's comfortable to drive and does not vibrate. Its unique features enable prosperity and success and keep you ahead in life.

Technical Features

1	Basic Features	Length - Breadth
		Tyre properties, mm 2000 Total width (mm) 1000 Total Length (mm) 2710 Total Height (mm) 1725 Front track (mm) - Rear track (mm) 805 Ground clearance when fully loaded (mm) 105 Maximum GVW, (in kg) 750 Total weight payload including battery pack (in kgs) 350 Weight capacity(kg) 400
2	Work	
	Maximum Speed Distance per charge Electric system selection Mechanical gear	7 ^o gradient with GVW, Front gear with maximum grade ability *80 km (According to average Indian driving conditions) Option to choose from high, medium and low intensity 2 mechanical gears for all kinds of roads
3	Special features	
	Type of Motor	PMDC
	Maximum Power	850W
	Controller/ Invertor	
	Voltage control	48V
	Maximum Flow Control	40 amps
4	Battery	
	Type	Lead Acid
	Voltage	48V (12V monoblock, 4 together)
5	Charger	
	Type	On board
	input	AC, single phase 230v-50hz
	Output	48V / 15Amp
	Charging time	10-12 hours (at 100% discharge level)

*In ideal test conditions & battery conditions.
